Business and Operations Manager
The Generics Pharmacy (Gendrugs, Inc.)
Gendrugs Building, Hontanosas Road,
Purok 2, Totolan, Dauis, Bohol, 6339 Phillippines

Dear Ma'am,

I am writing to express my interest in an On-the-Job Training (OJT) opportunity at The Generics Pharmacy. I am currently a third-year Bachelor of Science in Computer Science student at Bohol Island State University – Clarin Campus, and I am eager to gain meaningful experience in a professional environment.

My academic background has equipped me with a strong foundation in computer science principles, including software development, data handling, and system design. I am also familiar with various tools and technologies used in both web and mobile development. I am enthusiastic about applying my learning in a real-world setting where I can further grow both professionally and personally. I am confident that your company's strong reputation and commitment to service make it an ideal place for me to learn, grow, and contribute meaningfully.

I am available to complete 320 hours of OJT starting in June 2025. I am a fast learner, highly motivated, and committed to contributing positively to your organization during my training period.

Thank you for considering my application. I look forward to the opportunity to contribute to your team and gain valuable insights through hands-on experience. Please feel free to contact me at your convenience.

Sincerely,

Edaguplo

I am a third-year Computer Science student at Bohol Island State University with a solid foundation in software development and a passion for creating practical digital solutions. I have hands-on experience in developing both web and mobile applications, as well as exploring areas such as data analysis and predictive modeling. I am eager to apply my knowledge in a professional environment, contribute to real-world projects, and continue growing through meaningful experiences.

RECENT PROJECT

2021 - 2025

MOBILE APPLICATION

- Developed a Student Grade Evaluation app with resource recommendations.
- Created Bohol InstaRecipe, a mobile recipe app featuring Boholano dishes.
- Built a stress-relief drawing app to promote relaxation through creative expression..

WEB APPLICATION

- Developed a diabetes prediction web application using machine learning for accurate health risk assessment.
